PROJECT PLANNING

Title of Project: Promoting breast and cervical health awareness in low income women.

Target Leading Health Indicator Category: Clinical Preventive Services

Target Audience: Women between the ages of 21-64 years old, low income, uninsured or underinsured.

Goals/Objective: Partner with Shepherd's Hope Health Center to promote the early detection of breast and cervical cancer screening in low income women in the Central Florida area. (1) Increase cancer screening awareness (2) Promote evidenced-based breast and cervical cancer screening (3) Reduce breast and cervical cancer health disparities (4) Leverage available resources through community partnerships

Description: (Key Partner/Organization Sponsor) Shepherd's Hope Health Center is a faith-based organization that provides access to healthcare for the uninsured or underinsured in Central Florida. It has five free standing health centers in Central Florida.

SHEPHERD'S HOPE HEALTH CENTER

COMMUNITY NEED

- 1 in 4 uninsured, estimated 425,000
- FI ranks 46th, adults without insurance
- FI ranks 49th, children without insurance
- **LARGEST FREE AND CHARITABLE CLINIC IN FLORIDA**, both in the number of locations and patient capacity
- **5 FREE-STANDING HEALTH CENTER** locations in Orange and Seminole counties.
- **43% of Shepherd's Hope's PATIENTS ARE EMPLOYED BUT UNINSURED**

PROVIDED IN 2018

- 19,033 free patient visits and medical services
- 2,800 volunteers
- 39,000 volunteer hours
- \$17 million donated medical services, diagnostics, specialty care and facilities from hospital, faith and community partners
- 275,608 **PRIMARY CARE AND SPECIALTY CARE PATIENT VISITS** to uninsured men, women and children provided since 1997
